

Ethical Hacking Assignment (2)

A\ Change the MAC address:

To change MAC address in kali linux we have two methods:

- 1) Random
- 2) Manual

Both we should first right command to turn of interface card using [ifconfig wlan0 down].

In random method we should use: [macchanger -r wlan0].

In Manual we should use :

[macchanger -m 00:d0:70:00:20:69 wlan0]

To show MAC address we should use [macchanger -s wlan0].

B\ Determine the specific MAC address to special vender:

To show specific MAC address to special vender we shoud use this command:

grep -i "^\w{2}:\w{2}:\w{2}B" /usr/share/wireshark/manuf

ex:

00:1A:2B Apple Apple, Inc.
